SUMMARY

Telecom Infrastructure Engineer with 7+ years of experience supporting large-scale 4G/5G network deployments, site implementation, technical documentation, QA/QC and multidisciplinary project delivery. Experienced in Technical Site Survey Reports (TSSR), RF/site configuration, AutoCad, Bills of Material and stakeholder coordination, including delivery across 1000+ telecommunication sites. Currently expanding capabilities in AWS, Azure, Infrastructure as Code and cloud-native technologies through hands-on training involving Terraform, CloudFormation, Docker, Kubernetes and 5G Telco Cloud environments.

PROFESSIONAL EXPERIENCE

ZTE Malaysia Corporation, Subang Hi-Tech
Design Engineer | May 2024 – Mar 2025

- Reviewed **Technical Site Survey Reports (TSSR) for LTE/4G/5G deployments**, maintaining a **95% on-time delivery rate** while documenting RF parameters, antenna configurations and site-feasibility requirements.
- Prepared **Bills of Material (BOM)** with **100% on-time submission** and coordinated with contractors to resolve installation and site-quality issues.
- Collaborated with **engineering teams, contractors and client stakeholders** to align technical deliverables with project requirements, rollout schedules and quality standards.

Ericsson Malaysia Sdn Bhd, Bandar Sunway
Implementation Engineer | Sept 2017 – July 2023

- Produced and reviewed **TSSR documentation for 1,000+ sites** across large-scale 4G/5G network rollouts, consistently maintaining approximately **95% on-time delivery**.
- Performed **QA/QC reviews** of engineering deliverables to ensure compliance with Ericsson standards and client requirements before submission.
- Created **AutoCAD technical drawings and Bills of Material**, reviewing site configurations, power solutions and RF requirements to support implementation activities.
- Mentored **5+ junior engineers** in TSSR preparation, site assessment and documentation practices, contributing to improved team consistency and delivery efficiency.
- Coordinated with planning, implementation and client teams throughout site delivery, from initial survey through **post-installation quality review and operational handover**.

EDUCATION

- **Bachelor of Electric & Electronic Engineering with Honours**
  Universiti Kebangsaan Malaysia | 2012 – 2016 | CGPA: 3.07
- **Matriculation Certificate in Science (Module 2)**
  Kolej Matrikulasi Perlis | 2011 – 2012 | CGPA: 3.96

CERTIFICATIONS

- **Qualcomm Academy 5G Introductory-Level Certification**
- **Qualcomm Academy 5G Associate Certification (Stand-Alone SA)**
- **Lablabee Hands-on Training and Certification**

- **AWS Certified Cloud Practitioner**
- **CompTIA Cloud+**
- **CompTIA Network+**

TRAININGS

5G ACCELERATOR UPSKILLING FOR CAREERS IN 5G, CLOUD & INDUSTRY 4.0
Telecommunication Engineering College | Sept 2026 – Oct 2026

- **Telco Cloud Labs:** Linux, cloud computing, Docker, Kubernetes, advanced Kubernetes for CNFs and telco infrastructure, Grafana observability and network function monitoring.
- **5G Labs:** 5G New Radio fundamentals and end-to-end 5G Standalone network concepts.
- **IoT Labs:** Industrial IoT, sensor-to-cloud concepts and API utilization.
- **AI Labs:** Generative AI for enterprise operations and business teams.

AWS re/Start Program
Forward College | Apr 2026 – Aug 2026

- Designed and deployed an **AWS VPC architecture** with public/private subnets, routing, Internet Gateway, NAT, security groups and NACLs.
- Configured **IAM policies and least-privilege access**, hardened Linux EC2 instances and implemented CloudWatch/SNS monitoring.
- Built a **serverless automation pipeline using Lambda, S3 and SNS.**
- Used **AWS CloudFormation** to provision and manage cloud infrastructure across the stack lifecycle.
- Configured Route 53 health checks and failover routing with basic cost optimisation.

Network & Multicloud Training
Nexpert Academy | Oct 2025 - Jan 2026

- Practised **TCP/IP, subnetting, VLANs, OSPF, NAT, DHCP and DNS** through hands-on networking labs.
- Gained practical exposure to **AWS and Azure cloud environments**, including VMs, VNets, NSGs, cloud security, monitoring and multicloud architecture.

RELEVANT SKILLS

- **Cloud – AWS:** EC2, VPC, IAM, S3, Lambda, RDS, ELB, Auto Scaling, CloudFront, Route 53, CloudWatch, CloudTrail, AWS Config
- **Cloud – Azure:** Virtual Machines, VNets, Subnets, Route Tables, NSGs
- **Infrastructure as Code (IaC)** - Terraform, AWS CloudFormation
- **Networking** - TCP/IP, DNS, DHCP, Subnetting, VLANs, Routing, OSPF, NAT
- **Telecom Engineering -** 4G/5G Site Implementation, TSSR, RF/Site Configuration, BOM
- **Engineering Tools –** AutoCad
- **Cloud-Native -** Hands-On Exposure: Linux, Docker, Kubernetes, Grafana
- **Soft Skills –** Stakeholder Communication, Cross-Functional Collaboration, Leadership & Mentoring, Problem Solving & Decision Making, Technical Documentation & Reporting, Project Coordination
- **Language**: English, Malay
